

BE AWARE : BUTTS HAZARDS

Please be aware of the following hazards that exist in these Butts.

1. **DANGER** of falling from mantlet top into gallery. Be aware of where the edge is located when removing or replacing tarpaulins.
2. **DANGER** of rapidly descending/ascending counterweights or targets. **KEEP CLEAR** of counterweights especially during target removal or replacement. Target weight is 100kg. (220lbs)
3. **DANGER** of falling from one gallery level to another. Be aware of your position at all times.
4. **RISK** of being left behind in Butts. If this happens, lower target 1 and switch of system in control box on butt wall adjacent to target 1. Wait in target shed till someone arrives from firing point.
5. **TICKS** surrounding grass and bracken is infested with Ticks, be aware, and check your clothing and person at first opportunity.
6. **FIRE** do not smoke when refuelling generators or working with petrol.
